

////////////////////////////////////
Globe-360 v2
X360 Dvd-drive
Universal Firmware Upgrader

INSTRUCTIONS

////////////////////////////////////

Firmware Bank0 <-Power-on the console through a normal presson of power button

Firmware Bank1 <- Power-on the console through a very-fast presson of power button

If the Dual-Firmware Mode wasn't enabled under the application setting-up, the different presson of power button at power-on don't care.

Modchip Mode :

ENABLED-> FW0 or FW1 Led_status= **ON** <- Power-on the console through **POWER** button

DISABLED-> ALL Led_status= **OFF** <- Power-on the console through **EJECT** button
